7.2.1 Best Practice

Title of the Practice: To remove the hesitation of students and develop their overall personality.

Objectives of the Practice

1. To motivate the students in a way that they realize their potential and enthusiastically work on their potential.
2. To involve the students in academic and extra-curricular activities to develop their personality.
3. To make the students self-reliant and develop a sense of self-sufficiency.
4. To impart the required knowledge and necessary skills in the students so that they become economically independent.

The Context

Motivation reflects something unique about each one of us and allows us to gain valued outcomes like improved performance, enhanced well-being, personal growth, or a sense of purpose. Motivation is a pathway to change our way of thinking, feeling, and behaving.

College has been sensitive to the present status of student in the tribal region. Also, this tribal region is dominated by the Left Wing Extremism ideology. Most of the students belongs in this region are hardworking, sincere and willing to grow in every field. But, due to poor schooling, lack of information and exposure, they are not confident to do outside work for them. Hopefully, our effort to make them more informed and confident will act as the catalyst of change to bring about the desired awareness and change.

The Practice

1. To remove the hesitation of students they are encouraged to speak in classroom and participated in various extracurricular activities.
2. Whenever students (specially girls), comes to solve their problem in front of Principal, College office or any faculty members with their parents or elder one, we told their parents to keep aside. And, subsequently motivate the concerned student to present their issue. This helps student come out from their hesitation and gain confidence to rise up their issue.
3. Students are motivated, cooperated, coordinated and guided to complete all college related work by themselves.
4. Students are encouraged to do their work by themselves like opening bank account in bank for scholarship, making caste certificate, domicile certificate and Income certificate from CHOICE center or from Tehasil office, in Post office, Hospital or any other government office.
5. Helpdesk for students.

All these steps help students to rise up as well informed, confident and responsible citizen.

Evidence of Success

Motivations grow self-confidence, adjustment level, and emotional maturity among students. They may recognize their own potential and advocate for changes in society. However, the success is achieved in terms of exposure which would help them motivate their next generation and achieve better than themselves. Very few parents are visible in college campus for student related works. Most of the college related works are finished by students only. One of our students, Ashok Manjhi is elected as Sarpanch, in the Panchyat Rampur.

Problems Encountered and Resources Required

The quality of the students in our college doesn't match up well with the student of urban area. Some, students are of shy nature and are also not willing to learn. The poverty level of the students constricts their consciousness to think beyond the survival needs. Another hurdle in their college education is that it doesn't lead to any employment directly.
